

Remote Video Solutions on Securitas Corporate Website

The screenshot displays the Securitas corporate website. At the top left is the Securitas logo, consisting of three red circles above the word "SECURITAS". To the right of the logo are navigation links: "Securitas Group", "www.securitas.com", "Securitas In the world", and "På svenska". A search bar is located to the right of these links. Below the search bar is a horizontal navigation menu with the following items: "About Securitas", "Customer Segments", "Services" (which is highlighted), "Investor Relations", "Corporate Governance", "Media", "Our Responsibility", and "Join Us".

On the left side of the page is a vertical list of service categories: Aviation security, Call-out services/Response services, Canine services, Corporate investigation, Executive protection, Home alarms, International security solutions, Loss prevention, Mobile services, Monitoring center/Console operations, Receptionist/Concierge services, Remote video solutions, Risk management services, Safety services +, Screening, Security consulting, Security solutions, Specialized guarding, and Track and trace.

The main content area features a breadcrumb trail: "www.securitas.com > Services". Below this is the "Services" section header. The introductory text reads: "Security is Securitas' core business and we can provide our customers with a range of specialized services or a complete security solution. Here you will find information on our most frequent services. For more detailed information on our services in the countries where we operate, please visit the local websites."

Two featured service cards are visible:

- Remote video solutions:** Accompanied by an image of a person in a control room with multiple monitors. The text below states: "Remote video solutions is cloud based, rented, video surveillance solutions that bring state-of-the-art security in innovative and cost-effective service packages." A "Read more" link is provided.
- Specialized guarding:** Accompanied by an image of a security officer in a uniform talking to a woman at a desk. The text below states: "A specially trained security officer performs services tailored to the needs of medium-sized and large businesses, since the services require customer knowledge and a close relationship." A "Read more" link is provided.

At the bottom of the page, there are two more images: one of a security officer on a rooftop with a megaphone, and another of a security officer standing next to a line of cars in a parking garage.

Remote video solutions

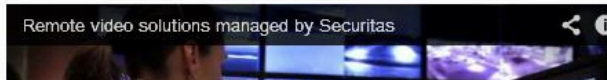

Remote video solutions is cloud based, rented, video surveillance solutions that bring state-of-the-art security in innovative and cost-effective service packages.

Cutting edge cameras and software create real-time security that prevents incidents, optimizes security officers' time and reduces costs.

The solution is built upon an open platform, is scalable and results in significantly fewer false alarms.

Remote video solutions cover:

- Patrolling
- Escorts
- Alarm verification
- Entry/exit management
- Perimeter protection
- Business intelligence applications, and more
